Sean Garretson, AICP *PROJECT DIRECTOR*

Sean Garretson has provided solutions to his public and private sector clients in land use and community and economic development for the past 16 years. He was responsible for economic development activities for a Council of Government and a large public utility in Central Texas. In his areas of expertise, he has managed land planning for a large civil engineering firm, and has led consulting projects for two of the nation's largest economic development consulting firms.

Mr. Garretson received a BA in Anthropology from George Washington University and an MS in Community and Regional Planning with a Specialization in Economic Development from the University of Texas-Austin. He is a certified planner (AICP) with a specialization in economic development. Mr. Garretson serves on several revitalization boards in Austin, including one in which he chairs the board of an attainable housing non-profit.

Erin Wingerter *PROJECT MANAGER & ANALYST*

Erin Wingerter has an extensive background in the economic and business consulting arena, having worked for CRA International and ERS Group -- both highly recognized in the fields of analysis. Ms. Wingerter joined Pegasus Planning in 2008 as a project manager and is responsible for overseeing projects from start to finish.

Ms. Wingerter received a B.A. in Business and Economics with a minor in Psychology from Wheaton College in Wheaton, Illinois. Ms. Wingerter currently resides in Austin, Texas where she participates in a number of community activities including the Austin Women's Soccer League. Ms. Wingerter is also a member of a developmental team that does work in Nagishot, Sudan.

Chris Holtkamp, AICP

PLANNING AND MAPPING

Mr. Holtkamp began his career working with Geographic Information Systems (GIS) at the City of Loveland, Colorado. He moved back to Austin in 1999 and began working at the Lower Colorado River Authority as a GIS Analyst. In 2001 he transferred to the Community and Economic Development department and began work in community planning.

Since 2001 Mr. Holtkamp has led the development of Comprehensive Plans for a number of cities throughout the Central Texas region. These plans address land use, economic development, housing, downtown revitalization, historic preservation, and community development. The

plans are based on a thorough community input process to ensure they reflect the priorities and concerns of the citizens. Plans incorporate elements of new urbanism and smart growth seeking to protect the rural character of communities and minimize sprawl. GIS is used extensively throughout the planning process to provide additional analysis and mapping to the process. In addition to his planning experience, Mr. Holtkamp has been involved with many economic development projects including Target Industry Analyses, business recruitment training, tourism assessments, and strategic planning. These projects provide communities with the information they need to develop sustainable local economies. Mr. Holtkamp has a BA in Geography from the University of Texas at Austin, and his Masters in Geography from the University of Denver. He received his AICP Certification in May 2006.

Jeff Erramouspe

ENTREPRENEURSHIP EXPERT

Jeff Erramouspe is a marketing and entrepreneurship consultant residing in Austin, TX. In addition to his advisory role to Pegasus, Jeff is also Vice President of Market Development at Digby/30 Second Software, an early stage mobile commerce platform provider, where he has responsibility for growing the business in new strategic markets.

In 2006-2007, Jeff consulted with the Western Arkansas Workforce Investment Board and the Fort Smith Regional Chamber of Commerce to lead the implementation of their economic development plan. During this time Jeff

led the establishment of the Innovation and Entrepreneurship Center at Fort Smith (IEC) and was contracted to act as interim and then full-time Executive Director. In January of 2001, he co-founded Deepfile Corporation (now called StoredIQ), a leading provider of file management solutions for corporate compliance. During his tenure as CEO of Deepfile, the company raised \$4M in venture capital and angel funding. Previously, Jeff was the vice president of marketing for Vignette Corporation. Jeff has a Bachelor of Arts degree from the University of California at San Diego in Management Science. Jeff has served as an adjunct professor for entrepreneurship at the University of Texas Graduate School of Business and is an experienced public speaker, presenting at numerous conferences and conventions.
